

BETA Netherlands Activity Report 2021

2021 was another year of COVID-19 and therefore we were limited in the activities we could organise. Nevertheless we still managed to organise a mini-MEU and our large online Model European Union Netherlands could 2020/2021 could finally be held this year.

Mini-MEU Leiden

On May 21st we organised a mini-Model European Union in Leiden together with ISSA for students following International Relations and Political Science related programmes. The topic for the mini-MEU was the European Defence Fund, for which the content preparation was adapted by us from an original simulation format provided to us by our partner organisation in Greece.

Model European Union Netherlands

From July 19th-July 22nd we organised our online Model European Union Netherlands, after a Team Workshop day on July 18th. The event was attended by +/- 50 young people, primarily aged 18-25, from all over Europe, from Sweden to Greece and from Portugal to Armenia. The topics discussed were the European Globalisation Adjustment Fund and the Combatting Terrorist Content Online, both based on real directives from the European Union.
